

BREXIT CONCERNS US ALL!

The **right** to work

The **right** of establishment and self employment

The **right** to recognition of professional qualifications

The **right** for the no longer economically active to stay

The **right** to be joined by family members and health insurance

The **right** of crossborder freedom of movement and work

This is what it is about:

Which rights can a person living in the EU claim for themselves
and what happens when these rights are taken away?

**That which now threatens some 6,000 British citizens living in and around Munich is
a blueprint for us all to understand what the EU means to each person.**

It also effects:

Licences, not just for medicines
Patents for vital products
Exchanges of information
Art and culture

What happens next?

Ask questions and perhaps get an answer from those affected,
experts and those who know perhaps a little bit more.

**Friday, 17th of May at 19:30 o'clock
